"Blue Spring is actually a rather profound and dramatic exploration into the search for meaning in an otherwise despair-filled scenario"....Sarudama.com

"With a pounding rock soundtrack from Japanese punkers Three Michelle Gun Elephant, Blue Spring...is a good movie. It's entertaining, it has a valid social commentary, and the performances are strong".....Snowbloodapple.com

"By sheer charisma and presence, and without showing the slightest effort, he (Ryuhei Matsuda) commands every shot he's in. Matsuda is the undisputed star of this show and his performance in Blue Spring signals the arrival of a movie star period"....Midnighteye.com
